

Primary School PE and Sport Premium Funding

What is the Sports Premium?

The Government is providing funding of £150 million per annum for academic years 2013/14, 2014/15, and 2015/16 to improve provision of physical education and sport in primary schools. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school Headteachers to spend on improving the quality of sport and PE for all their children. The sport funding can only be spent on sport and PE provision in schools

Below is how our school is using the funding in some key areas: -

KS2

Caister Junior is working in partnership with Norwich City Community Sports Foundation (CSF) to help build on the core skill base identified for key stage 1 pupils, by working in specific sport areas such as invasion games which cover Football, High 5 Netball, Quicksticks Hockey and Tag Rugby. Striking and Fielding sports such as Rounder's and Kwik Cricket, and along with Net and Wall games such as tennis and volleyball.

CSF staff use ongoing assessment documents to help measure the impact of delivery and the progress of the pupils.

School staff form a vital part of the programme to enable and sustain quality of delivery as they are encouraged to support delivery as part of their ongoing CPD which helps sustain and maintain delivery.

Caister Primary and CSF work together to identify a suitable scheme of work and lesson plans which further impact the teaching and learning of both staff and pupils

Cross Curricular Provision

Caister Junior and CSF use a range of engagement tools to help with behaviour and achievement to help pupils maintain the cultural, social, and spiritual development outside of school such as Sportasaurus star of the week which rewards pupils for their involvement in lessons, and asks them to use key literacy skills to write about how they felt about receiving the award and how this engages pupils to participate in sport away from the school environment.

High quality PE Teaching Award

The high quality PE teaching award is a level 3 accredited programme to raise teacher's confidence in teaching physical education. This course is helping to identify areas in which to spend the PE funding to ensure sustainability. There is a focus on making sure lessons are good to outstanding. During the course there are many useful and effective resources to help create an effective learning environment. Key to this are the 12 guiding principles which have been elaborated within the course.

The course has also provided a practical demonstration to ensure all the teaching standards are consistently achieved. Lessons and units from gymnastics dance, outdoor activities, athletics and games have been demonstrated and we have been given resources such as task cards to enable all children are learning and making progress.

The power of five is a resource used in all units. Can children keep exercising for 5 minutes? (Co-ordination, balance, jumping, running, aerobics etc to music throughout one song.) Throughout this, children can see and feel what is happening to their body as they exercise. The scientific explanations can progress throughout their primary education. Learning objectives can also be talked through during this time along with any questioning skills linked to previous work and future work. Questioning techniques has been an effective tool for children to demonstrate their progress within lessons when used appropriately.

After recently receiving a new apparatus, a health and safety section was important and valuable to be able to use within the school. The equipment has been shown to be sustainable as it is not just limited to gymnastics and can allow the children to move on with their learning.

Overall, the course has been hugely beneficial to see how an outstanding PE lesson should be taught and the components to making this. The resources, practical involvement and teaching are memorable and valuable. The continuity and progression shown can be used across the school. All the resources, assessment criteria, observation sheets etc are on a website only allowed to members of the course.

Premier Sport

The premier sport qualified coaches have been working in the school on a Friday lunch time and Monday after school. Both clubs have been thoroughly enjoyed by the children. They are engaged in a range of sports. The clubs have given children the opportunity to participate in exciting and different sports such as archery and fencing. The children made progress and became trained referees for their own fencing tournament.

Along with the lessons there is also a school portal. This is where all lesson plans, coach information and school impact measurements are stored and can be accessed at any time by school staff. The coaching sessions can also act as CPD for the school and staff development.
